Education

2018/06 – 2021/05

B.com specialization in computer application

Vaniyambadi

Islamiah College (Autonomous), Vaniyambadi

Profile

As an Enthusiastic Flutter developer with a fervor for designing dynamic, intuitive mobile applications. Adept in Dart programming language, I excel in formulating seamless and aesthetically pleasing cross-platform solutions, possessing a strong grasp of front-end technologies like HTML, CSS, and JavaScript. I offer a well-rounded skill set to the development arena. I am keen to leverage my proficiency to innovate and produce state-of-the-art mobile applications.

Professional Experience

2022/06 – present

Flutter Developer (Intern)

Remote

Aspira Sys

- Acquired comprehensive knowledge in Flutter technology, specializing in UI design and development. Additionally, proficiently explored the realms of HTML, CSS, JavaScript, Bootstrap, Git, MySQL, and Object-Oriented Programming (OOP).
- Demonstrated expertise in both Flutter and Dart programming languages, leveraging them to create robust and intuitive mobile applications. Furthermore, gained practical experience in integrating Firebase services, enhancing application functionality and real-time data management capabilities.
- Acquired practical experience in front-end development by creating visually appealing and user-friendly interfaces for various projects, including a E-commerce Catalog App, weather forecast app, to-do list app, BMI health tracker, Task manager, and a app, using Flutter.
- Demonstrated commitment to project success by consistently updating and maintaining project statuses, facilitating seamless coordination and progress tracking.
- Engaged in collaborative group discussions with team members, fostering innovation and promoting effective problem-solving strategies.
- Achieved project milestones ahead of schedule, showcasing strong project management and time management skills.
- Executed a diverse range of web development projects, including the creation of a weather to-do list application, music app, quiz app, gym website, and news website, underscoring versatility and expertise in web development practices.

Projects

- Developed diverse projects utilizing Flutter, showcasing versatility and proficiency in mobile application development. Projects include:
-
- E-commerce Catalog App: Crafted an intuitive and feature-rich catalog application, enabling users to browse and shop products seamlessly.
-
- Recipe Saving App: Designed a user-friendly application for saving and organizing recipes, offering convenient access to culinary inspirations.
-
- Budget Tracker App: Developed a comprehensive budget tracking solution, empowering users to manage expenses and monitor financial health effectively.
-
- Travel Planning App: Created a robust travel planning platform, facilitating itinerary management, destination exploration, and trip organization.
-
- Weather Forecast App: Engineered a dynamic weather forecasting application, delivering accurate weather updates and forecasts to users' fingertips.
-
- BMI Calculator App: Implemented a body mass index (BMI) calculator, enabling users to monitor their health and fitness goals effortlessly.
-
- These projects demonstrate proficiency in Flutter development and showcase the ability to address diverse user needs through innovative mobile solutions.

Certificates

Web Developmet

Completed course, covering HTML, CSS & Javascript

Flutter with Dart

Completed Flutter with Dart course, gaining expertise in cross-platform mobile app development.
